Re: Patent application of
Mr. George Krikorian

Mr Zeitlian

As you are well aware on November 09, 1999 you signed an agreement to assign all of your rights as a co-inventor of the Multiple Stage Theater to Showprop Monrovia, LLC. You also agreed to co-operate in the prosecution of the application for letters patent for the invention. Apparently of late you have been advised by an attorney to breach your agreement to co-operate in the prosecution of the patent application by refusing to do so. You also are demanding that Mr Krikorian release you from your assignment agreement. I have advised Mr Krikorian not to do this.

At this time I am enclosing yet another copy of the specification of the patent application a copy of the claims and the patent application drawings in this letter to you. Also enclosed is a new oath of inventorship which has a space for your signature. This is all of the application papers that you need in order to truthfully sign the new oath of inventorship.

You are now requested to sign the enclosed oath of inventorship and send it to me in the enclosed stamped envelope. If you do not do so within ten days of this letter I will proceed with the application by filing a petition to proceed without your co-operation to which you have agreed in writing. This request is not subject to discussion or negotiation. You have been repeatedly requested during the past several weeks to perform your written agreement with Mr Krikorian to co-operate in the prosecution of the patent application for the Multiple Stage Theater and have repeatedly refused to do so. Thus Mr Krikorian now has no other choice other than to proceed in the prosecution of the patent application without your co-operation. It is no longer possible to further delay the prosecution of the patent application with or without your agreed co-operation. Thus the present ten day deadline for you to sign the enclosed oath of inventorship and return it to me no longer can be extended for any reason.

RECEIVED

JAN 18 2002

OFFICE OF PETITIONS
DEPUTY A/C PATENTS

I am sorry that you have continued to refuse to sign the new oath of inventorship for the last several weeks and to otherwise co-operate in the prosecution of the patent application for the Multiple Stage Theater as you have agreed in writing to do. It is regrettable that you continue to refuse to co-operate with Mr Krikorian because you have nothing to gain by such refusal to co-operate with him.

Please be advised that the enclosed patent application papers including the specification, the claims and the drawings are confidential trade secrets belonging to Mr Krikorian or to Showprop Monrovia, LLC . You are required by law and by your written assignment agreement to keep these documents and papers secret. Your secrecy means that the enclosed application papers and new oath of inventorship should not be shown to anyone including another attorney or any other person.

Finally Mr Krikorian has been negotiating with you personally for several weeks in order to obtain your co-operation in the prosecution of the patent application all to no avail. However, at the request of Mr Krikorian I am sending him a duplicate copy of all of the application papers which include the specification, the claims and the drawings of the invention and a duplicate blank copy of the oath of inventorship. Mr Krikorian informs me that he will contact you personally about this matter and arrange for you to personally visit his office and review any of the application papers, obtain another copy of the application papers and sign the blank oath of inventorship at his office if you wish to do so at this time.

In the meantime if you continue to refuse to sign the new oath of inventorship it will be appreciated if you would at least state your refusal in writing to me or to Mr Krikorian so that we can proceed with the patent application in your absence. Otherwise we will be required to wait another ten days to do so if you continue to refuse to sign the new oath of inventorship. No further discussions or negotiations are possible at this late date.

Sincerely,

Nathan Boatner
copy to Mr Krikorian

Re: Patent application
Of Mr George Krikorian

Mr Zeitlian

After submitting a proposed continuing prosecution application to the PTO I was advised that in lieu of that application a continuing application should be filed together with a petition to proceed without your co-operation if you continue to refuse to perform your written assignment agreement to co-operate in the prosecution of the patent application.

Accordingly enclosed is yet another another copy of the specification of the patent application, a copy of the claims and the patent application drawings in this letter to you. Also enclosed is a new oath of inventorship which has a space for your signature. This is all of the application papers that you need in order to truthfully sign the new oath of inventorship.

Please sign the new declaration of inventorship and return it in the enclosed self addressed stamped envelope. If I do not hear from you within ten days of the date of this letter I will have no choice other than to proceed in the prosecution of the patent application without any further co-operation from you.

Sincerely,

Nathan Boatner
